THE SENATE.

The Senate, it is probable, will be composed of a majority of Van Buren men. The Whige, however, have made a handsome gain in this . body, ten Whig Schators having been elected. viz : Three in Kennebec, four in Lincoln, two in Someract, and one in Washington. The Van-Durenites claim the remainder. They have undoubtedly succeeded in electing three in York, two in Walds, two in Oxford, two in Penobscot, and two in Hancock and Washington, but it is matter of doubt whether they have succeeded in electing their Senators from Cumberland.

The following genilainen are ai verlaitied to be elected:

It is not known, precisely, how many membere of Congresse Mr. Van Buren expected tu convert to locoism, and to the gold humbug, by ordering them to be paid in gold; but it is by no means improbable that some of the Van Buremites awallowed the dose in consideration of the three quarters of a dollar per day, which this order has added to their pay. Members are al. ready drawing their travel fees. One member a lew days since, says the correspondent of the Atlas, drew \$1800 which he disposed of at nine percent premium, giving him a clear gain of 144. This is Van Burenism. This is locofocoism. Who would not be a loco if he had the promise of a good fat office? Take care of the government and the office holders, is the doctrine of the Message, and let the people take care of themselves! Rags and shin-plasters are good enough for them. Do our readers want any better reason why the President, and his Secretaries and adherents, desire the continuance of the present state of things than that their salaries of thousands are worth to them nine per cent more than heretofore? Nine per cent on \$6000 is no small matter, and on the President's salary it amounts to no less than TWO THOUSAND DOLLARS! "THERE IS NO PRESSURE WHICH A KY HONESR and Williams of N H

It was but a few years ago, that Gen. Wade Hampton a celebrated Sugar planter of Louisiana, was considered one of the wealthiest men in the United States. He is now dead, and his immense estates, now in the hands of his aged widow, must soon be divided among his childreen and grand children. As I said our party now consisted of these four and our trio from Bangor. The first day's ride of 62 miles was rough beyond description. We spent the night, seven miles from Harrisonburg, near Harrison's cave. This cave the gentlemen of the party visited; and though it is justly celebrated "in these parts," and really a great curiosity, I have not much desire further for cave-hunting. The mouth of this cave is in the side of a hill, 2 or 3 hundred yards from the house at which we stopped. The aperture at first is small, and you descend about 30 feet by means of stone and wooden steps in a bending posture. You soon gain the main part of the cave, the ceiling of which, for the most part, is from 20 to 30 feet above your head. Stalactiles aree verywhere formed and forming, some great and some small, but all varying in form and color, from the pure white just petrified, to the large dusky columns some feel in diameter, which for ages past have been increasing to their present size. Every cave, travellers will tell you, has an organ or a ensuith, Bond, Fry, Sibley, Ewing, Gray and pulpit. This certainly has both, or what very strongly resembles them. We explored this cave not far from 200 yds, each carrying a light. ed worth in his hand, following the guide. When we issued from the damp cavernous regions below, once more to behold the store. heavens above, the genial warmth of the climate, the fresh zephyrs breathing around us, and the fragrance of sich vegetation and flow-

F. & I. S. WHI'MAN, Agents, Bangor I'll friends of Hygeianism and the public generally, are again causioned as any the impriserally, are again cautioned against the unprin-cipled attempts of apothecaries and quack doctors, to destroy all confidence in these highly valuable and almost indispensable family medicines, by the cry at imposition? examinant prices: falseland? and more than all, by the assonishing benevolence of the crais in imparting to the world their wonderful discovery of the composition of them - that a three dellar pack of costs but one shilling that any person can make them, etc. Counterfeiters also, beware of the law. The British College of Health have recently recovered damages of the makers and venders of a speci-one, dangerous article, in the courts of Massachusetts and New York; and their exclusive right and proper-ty in the sale, is finally established, and confirmed in

this country.
Two hundred thousand dollars worth of these sunle and effective medicines are sold annually in the United States, and injury from them is unheard of. One cause of the high price they, bear, is a heavy export duty paid in England; yet they are incomparably cheaper than any patent inedictues ever offered

The genuine article cannot be bought of apothe ogries, travellers, or pediers; they being denied the sale throughout the world. The only place in this section where they can be had, is at the store of F. & 1. S.
